

## CAT6 UTP CABLE 23AWG

### AACU01

Cat6 cable features 4-pair unshielded twisted pairs with a true 23AWG/0.57 mm solid conductor. This cable is designed for distributing voice, video and data.

Each of the four pairs of the cable has a unique and precise number of twists per inch designed to minimize crosstalk between the pairs, which insures performance with high speed Gigabit Ethernet.

We have had this Cat6 UTP cable professionally tested in all aspects of performance, including frequency, resistance, attenuation. Category6 cable is perfect for any of your network installation needs.

- Cat6 4 Solid UTP Unshielded Twisted Pair
- Conductor: 23AWG - 0.57mm in diameter
- Wire Construction: CCA - Copper Clad Aluminum
- Smooth Jacket for Easy Pulling in Tight Space
- Color: Blue
- Length: 1,000 feet (305 meters)
- Pull box
- Cat6 UTP 23AWG 4P 1000FT
